Baby Care Range

Water Softner

KEY INGREDIENTS:

Sodium Citrate, Citric Acid, Sodium EDTA.

USP

1. Makes water soft for babies:

It balances the pH of water by reducing calcium and magnesium content, making hard water soft.

2. Balance pH:

Our scalp needs a pH of 4.5 and hard water has a pH greater than 8.5 making it harsh for your scalp. Adding this water softner would balance pH and helps in maintaining scalp health.

3. Fabric Softener

Formulated for your baby' clothing to keep them soft and refreshed without irritating their sensitive skin.

4. Odour Elimination

it helps to remove stains and odours effectively, leaving clothes clean, fresh and fragrant
